

# Introducing CJC

Established in 1999, CJC specialise in managed services, consultancy and products for capital markets firms. Our solutions leverage cloud technology to augment and manage real time data distribution systems, as well as enhance related compliance processes and overall commercial control.

As a vendor neutral partner, we can help you put in place tailored technology solutions that are right for your business and then manage your IT and data infrastructure, freeing you to focus on your core business.

Leveraging our global footprint and economies of scale, we can provide 24/7/365 support to quickly and cost-effectively help you optimise your market data operations.

### Optimised performance

Designing, testing, deploying and managing IT infrastructure solutions tailored to you

### Flexibility

Delivering you rapid upgrades and scalability through innovative cloud based solutions

### Cost control

Transforming your market data operations, both technically and commercially, to control costs

### Commercial management

Enhancing cost effective control of your data vendors and products

# Support Services

CJC's global support services team provide an enterprise level, capital markets infrastructure management service. Our uncompromising design, testing, deployment and management of applications ensure business as usual, without interruption. At the outset, we evaluate your specific demands and tailor a solution, from basic monitoring to full remote management. In every instance our goal is to help you optimise performance and minimise costs.

## Our support includes:

- Market Data
- Data Distribution
- Tick Capture
- Analytics
- Contributions

# Cloud Services

Our CJC Cloud Platform, a private cloud managed service, helps you meet your data and regulatory challenges, in the key financial locations you need it. We have also created a suite of products and tools that perfectly complement this platform, including a flexible big data visualisation service.

# Commercial Management Services

Better commercial management enables you to realise full value from your vendors and third party services as well as improve cost control and compliance. We provide as little or as much support as you need – from a one off review project such as a 'mock audit', through to a fully managed service – delivering end-to-end managed solutions via best practice.

## Who we work with:
